Ihor Lobanov

UI FRONT-END DEVELOPER

+48 881 291 317 | ihor.loba@gmail.com | Cracow, Poland

UI Frontend Developer bridging the gap between design and code. Proficient in JavaScript, HTML, CSS/SCSS, jQuery, and Figma, with hands-on experience in React. Skilled in translating UI/UX mockups into responsive, pixel-perfect web interfaces with a strong focus on component architecture and design systems. Passionate about delivering clean, maintainable code and exceptional user experiences for modern web applications.

EXPERIENCE

UI Developer — 2024-2026

BrainRocket

- Developed complex, high-quality user interfaces within an Angular architecture, contributing to the implementation of the frontend layer
- Established and maintained a scalable component architecture, ensuring codebase consistency and maintainability across all product features
- Conducted code reviews, enforcing high engineering standards, code quality, and visual consistency across the team
- Managed end-to-end release workflows, coordinating deployments across multiple environments to ensure seamless software delivery
- Mentored junior and mid-level developers, providing technical guidance on performance, accessibility, and modern web standards
- Collaborated closely with Designers, Product Owners, and QA engineers to translate design concepts into production-ready interfaces
- Optimized application performance and accessibility, enhancing cross-browser compatibility, loading speeds, and overall user experience
- Actively participated in planning and refinement sessions, contributing to UI-related technical decisions

UX/UI Front-End Developer — 2022-2024

ShelfNow

- Designed interactive prototypes and mockups in Figma, translating them into responsive, production-ready web components
- Developed dynamic UI components using JavaScript and jQuery, improving interface functionality and user engagement
- Optimized frontend performance, enhancing page load times and user experience through efficient DOM manipulation and script optimization
- Cooperated with marketing and backend engineering teams to plan, structure, and deploy regular website releases
- Maintained and built core UI components and layouts for existing pages and new features
- Performed cross-browser testing and debugging to guarantee visual precision and smooth functionality

Markup Developer — 2020-2022

ReliablePSD

- Built responsive HTML/CSS layouts from scratch and refactored legacy markup for better code quality
- Converted design mockups into pixel-perfect web pages with a strong focus on design consistency
- Resolved cross-browser compatibility issues and improved layout responsiveness across mobile and desktop devices
- Applied accessibility, performance, and SEO best practices to all developed pages
- Collaborated with QA to debug layout issues and ensure high-quality UI deliverables

EDUCATION

Master of Arts in Computer Science (2016-2018)
Cracow University of Economics

Bachelor of Arts in Marine Engineering (2010-2015)
Odessa National Maritime University

SKILLS

HTML, CSS, JavaScript, TypeScript, React, Next.js, Redux, React Router, Context API, jQuery, Sass, RWD, BEM, Bootstrap, Tailwind, PHP, AJAX, JSON, Angular, SEO, Git, Gulp, Docker, Gitlab, Github, Jira, Figma, Photoshop

LANGUAGES

- Polish
- English
- Ukrainian
- Russian

AWARDS

- Web Development Kit at Codecademy (2017)
- Front-end developer course at Coders Lab (2016)
